Underwater LED Light

Innovative and Efficient Underwater Light with overwhelming performance

E-Lumen Colour Changing Underwater Light applies the LED technology which has been proved to be the most eco-friendly light source with high efficiency, life span and quality. With the combinations of RGB individual LEDs, colour arrays with different modes are achieved under your full control. The special design of the lens provides a sleek profile against the pool wall allowing for efficient use of pool cleaners.

- The 35W 12V LED uses less energy than traditional halogen underwater light.
- Wall-mount design for easy and cost saving installation.
- Continuous operation if a single LED fails.
- Seamless design to protect water leaking into the light fixture.

RGB Colour Changing version offers:

- a) 6 fixed colours to choose based on your individual preferences.
- b) 8 fascinating pre-programmed choices of colour from continuous operation to fixed colour to fading in and out options providing different moods for family members to enjoy.

Specification:

- I. Power & Voltage: 35W/12V AC, 50/60Hz
- ii. Lumination (LUX) : 2000 (White) 1400 (RGB)
- iii. Colour Temperature of White : 20000K
- Iv. Waterproof Standard: IP68
- v. Concrete Pool & Vinyl Pool Compatible
